fyi

The application includes that the Maximum daily discharges for these ponds are:

1.3 MGD for Pond 023

1.01 MGD for Pond 024

Application also answers “no” to question of the discharges being intermittent.

Krista,

I read thru application.

The average flows listed in the appl appl are:

Pond 001 (023) are 40,000 GPD

Pond 002 (024) = 25,000 GPD

The appl includes the Preferred Design Alternative (OEPA Memo May 17, 2012) to reconstruct the ponds to ensure they discharge intermittently. (see C.4.c.)

OEPA is ignoring this plan now and claiming intermittent discharge without the reconstruction/enlargement of ponds.

Here is the app. I will follow up with the company comments. They were the only comments that we received on this permit.

Eric,

Thanks for the attached files, I did not receive the Excel spreadsheet prior.

Could I ask you a favor, this email indicates the permit application file attachment was deleted, could you send that file separately in another email to me?

I will contact our IT if it doesnt come through the second time.  
thanks

Janet – Here is information about the permit. I thought that it was sent in late November. I thought that I also sent a hand-drawn edit of a topo map showing the outfalls. Please let me know if you need anything else.

I checked and we dont normally receive minor permits. The need to review this permit was discussed during a recent management call between my Branch Chief & OEPA. If this was sent for some reason to a member of our staff Krista McKim, since she has worked on other OH coal permits, I apologize, she has been on maternity leave for about a month, so I cannot access her records or see if shes received it.

I will be on vacation until Monday. I will email the information to you then. The USEPA receives all of the permit applications. Please check with your "library" first. We have been instructed by USEPA NPDES section to send all mining related permit and applications to them.

**Subject:** AEC- Bennoc

Hi Katrina,  
I was just assigned to review the AEC Bennoc permit, so I will be working with you as the permit writer. Although no information re permit writer was contained in the docs I saw, the email trail from you to Eric indicated you probably are the PW.

In order for EPA to do a permit review, we must have not only the draft permit, but also the permit application. Could you send that to me?  
Or if the permit application is in the form of an NOI, I will need to see that.  
I did not see the permit application in the file I was sent, I do have the draft permit.  
Any supportive documentation you used to write the permit, would also be helpful, if you could send to me as well.

I am especially looking for a comprehensive site map that includes proposed disposal areas and outfalls in this draft permit.  
I understand this permit is separate due to enforcement actions on an existing set of sites, OVC and another AEC which are subsidiaries of the same company.  
So a site map that includes their boundaries would be appropriate.

I understand that this is an individual permit, but for reference could you also send a copy of Ohio EPA's general permit?

thanks much,  
Janet
